1965 REGENT

Is Presented by

The Senior Class

OF ST. REGIS FALLS CENTRAL
St. Regis Falls, New York

FOREWORD

In our never-ending quest for knowledge we have seen it most fitting to choose the "Torch of Knowledge" as our theme for the 1965 Regent. Each portion of the contents represents an event or some part of our 12 years spent in gaining this knowledge.

Our aim in producing this Regent is to give you a permanent record of your memories of S. R. F.

"His Scholarship was what he truly heeded.
He never spoke a word more than was needed,
And quick and brief. He was of grave discourse,
Giving new weight to virtue by his speech,
And gladly would he learn and gladly teach" . . . Chaucer

For us he has dedicated his life to being teacher, friend, administrator. He has taught us many lessons and has set an example to be remembered and followed as long as we live. His life shall be reflected in the pupils he has molded and directed into responsible adults. To him we owe a debt that cannot be repaid.

In return for his contributions in directing pupils toward a more meaningful, satisfying life, we gratefully dedicate the 1965 REGENT to our

IN APPRECIATION

MRS. DAISYE MONNETTE

Because you have accomplished the tremendous task of sending each student forward with a great anticipation of high school;

Because you have remained in school long after the last bell has rung assisting students in their understanding of math making this sometimes very difficult subject alive and more enjoyable;

Because you have contributed much to the planning and formation of each Eighth Grade Graduation giving a greater meaning to those graduating;

Because you have added a greater appreciation of culture to the lives of many students by assisting with a class trip to Montreal;

We wish to express our everlasting gratefulness to you for your many years of giving to each of your students that necessary spark enabling them to carry aloft their "Torch of Knowledge".

MRS. KATHRYN JOHNSON

Because you have always accompanied our entertainers, whether it was a church, town, or school function--refusing none;

Because you have often sacrificed a comfortable night at home to practice for a Chorus Operetta, or to drive a group of students to the State Festival at Potsdam, or to prepare our girls for County Chorus;

Because you have given of yourself these past sixteen years in bringing the joys of music to hundreds of students in this school;

Because we shall find in the coming years a great void in our school life without your everpresent smile and lilting voice;

We wish to acknowledge with deep appreciation your untiring efforts in making our "Torch of Knowledge" burn with a brighter and more meaningful glow.

IN APPRECIATION

MR. FLOYD ROCKHILL, Clerk

Because you have spent so many years in loyal service, above and beyond the scope of your actual job;

Because you have helped us when we needed your advice on some technical problem during a dance, assembly, play, or some other similar activity and have spent so many extra hours, making sure all equipment is in the best of condition for us to use;

Because you have given this assistance freely and willingly and have become a respected friend of so many of us;

We wish to express our appreciation, and to formally thank you for all your assistance, which has resulted, continuously over the last twenty-five years, in keeping the "Torch of Knowledge" burning in our school.

BOARD OF EDUCATION

This is the body of men that gives unity to all the efforts of the teachers and the administrators who try to help us, the students. We are often unaware of the many hours they contribute in attending board meetings, planning budgets and similar services.

We print this page in appreciation of their efforts to make available to us a good education and opportunities equal to those of all other students in any other school.

Mr. Martin Explains How to Do It

Industrial Arts is the broad study of the materials, organization, tools, processes, jobs and the human problems of industry. It is developed through the planning and construction of projects of interest to pupils, discussions, observations, and choice opportunity to develop consumer values.

During the last eight years in which Mr. Robert Martin has been at St. Regis Falls, our industrial arts program has been extended to include all areas required by the State Department of Education. Therefore the school has been granted regents approval. Over this same period of time the enrollment in this program has increased 36% which results in the shop being used by more people, providing greater opportunities to more students to become familiar with the processes and products of industry.
